

TABLE OF CONTENTS

| Sections/Topics: | Page #: |
|--|----------------|
| Table of Contents | 3 |
| Introduction to Microbiology | 7 |
| Suggested Laboratory Procedures and Safety Regulations | 9 |
| Sanitation, Storage and Discard Procedures | 11 |
| Suggested Study Techniques | 13 |
| Semester Project | 15 |
| Semester Project Write-Up Guidelines | 17 |
| Semester Project Data Record | 21 |
| Significance of Handwashing | 23 |
| WORKSHEET – Introduction & Exercise 1 | 26 |
| Microscopic Technique & Examination of Microorganisms | 27 |
| Microscopic Measurement | 32 |
| Observation and Scientific Illustration | 35 |
| WORKSHEET – Exercise 2 | 37 |
| Culture of Microorganisms & Media Preparation | 39 |
| WORKSHEET – Exercise 3 | 43 |
| Aseptic Technique & Streak Plate Preparation | 45 |
| Pure Culture Technique (Isolation of a Pure Bacterial Culture) | 49 |
| WORKSHEET – Exercises 4 & 5 | 53 |
| Staining of Microorganisms -- Direct vs Indirect Staining | 55 |
| Bacterial Morphology | 59 |
| WORKSHEET – Exercise 6A | 61 |
| Staining of Microorganisms -- Gram Stain | 63 |
| The KOH Test: Differentiation of Gram Positive & Negative Bacteria | 66 |
| WORKSHEET – Exercise 6B & 6B Supplement | 67 |
| Staining of Microorganisms – Acid-Fast Stain | 71 |
| WORKSHEET – Exercise 6C | 75 |
| Staining of Microorganisms – Endospore Stains, Capsule Stains & Flagella | 77 |
| WORKSHEET – Exercise 6D | 83 |
| Morphological Unknown | 87 |

Table of Contents (continued)

| | |
|--|-----|
| REPORT FORM – Morphological Unknown | 89 |
| Introduction to Prokaryotes and Enrichment for Selected Bacteria | 91 |
| Introduction to Cyanobacteria | 98 |
| Introduction to Fungi (Mycology) | 101 |
| An Introduction to Microscopic Algae | 115 |
| An Introduction to Protozoa | 121 |
| Introduction to Multicellular Parasites | 127 |
| Food Microbiology - Fermentation (Sauerkraut, Wine, and Root Beer) | 135 |
| Food Microbiology - Cultured Foods (Cheese and Yogurt) | 139 |
| WORKSHEET – Exercise 12 | 147 |
| Determination of Microbial Numbers | 151 |
| WORKSHEET – Exercise 13 | 153 |
| Use of Selective & Differential Media & Replica Plating Techniques | 155 |
| WORKSHEET – Exercise 14 | 161 |
| The Scientific Method & The Identification of Unknown Organisms | 163 |
| Guide to the Identification of Unknowns and Additional Information | 167 |
| Physiological Characteristics of Bacteria: | 171 |
| Carbohydrate Metabolism, MR-VP, Esculin, Starch, Catalase & Oxidase Test | 171 |
| WORKSHEET/STUDY GUIDE – Exercise 15A | 179 |
| Amino Acid Decarboxylation, Citrate Utilization, Coagulase & CAMP Tests | 181 |
| WORKSHEET/STUDY GUIDE – Exercise 15B | 185 |
| Gelatin Liquefaction, TSI, SIM, Urea Hydrolysis & Nitrate Reduction | 187 |
| WORKSHEET/STUDY GUIDE – Exercise 15C | 193 |
| Application of the Polymerase Chain Reaction | 195 |
| Automated Nucleotide Sequencing & Electropherogram Evaluation | 199 |
| Genomics, Proteomics & Bioinformatics | 203 |
| The Miniscreen - Rapid Isolation of Plasmid DNA | 209 |
| Gel Electrophoresis of DNA Samples | 213 |
| WORKSHEET – Exercises 19 & 20 | 219 |
| Restriction Endonuclease Digestion of DNA & RFLP | 221 |

Table of Contents (continued)

| | |
|---|------------|
| Characterization of Restriction Fragments | 225 |
| Calcium Chloride Procedure For Making Competent Cells | 227 |
| Transformation of <i>E. coli</i> With Plasmid DNA | 229 |
| WORKSHEET – Exercises 22A & 22B | 233 |
| Introduction to Viruses and Phage Typing | 235 |
| WORKSHEET – Exercise 23A | 239 |
| Isolation and Purification of Coliphages from the Environment | 241 |
| WORKSHEET – Exercises 23B | 245 |
| Bacteriophage Reproduction and Plaque Formation | 247 |
| WORKSHEET – Exercise 23C | 251 |
| Microbial Control (Effects of Temperature, UV Light, Disinfectants & Antiseptics) | 253 |
| WORKSHEET – Exercise 24A | 259 |
| Antimicrobial Susceptibility Testing - Agar Diffusion or Kirby-Bauer Test..... | 263 |
| WORKSHEET – Exercise 24B | 268 |
| Bacteriological Examination of Water | 269 |
| WORKSHEET – Exercise 25 | 271 |
| Composition of Blood & White Cell Study | 273 |
| Diagnostic Immunology (Precipitation, Agglutination & ELISA) | 275 |
| WORKSHEET – Exercise 27 | 283 |
| APPENDIX SECTION | 285 |
| Appendix A - Correct Use of Digital Pipettes | 285 |
| Appendix B - Calculations on Surface Area to Volume Ratios | 287 |
| Reference Literature on Microbiology | 289 |
| Answers to Laboratory Syllabus Questions | 291 |
